Abdulrahman Almyman

Riyadh, Saudi Arabia | XX | abdulrahmanalmyman@gmail.com | LinkedIn | GitHub | Portfolio | Hugging Face

TECHNICAL SKILLS

Cloud Platforms: Alibaba Cloud, AWS, Google Cloud Platform (GCP), Azure
Cloud Infrastructure & Networking: Compute, VPC, Load Balancing, Object Storage, Managed Databases, Cloud Migration, Express Connect, IPSec VPN, DNS, Hybrid Cloud Networking
Containers & Orchestration: Docker, Kubernetes (K8s), Helm
DevOps, IaC & Automation: Terraform, Ansible, GitHub Actions, Jenkins, GitLab CI/CD, GitOps
AI & Machine Learning: PyTorch, TensorFlow, Agentic AI, Agent Orchestration, Multi-Agent Systems, MCP, vLLM, LLMOps, RAG, Vector Databases, Prompt Engineering, Amazon Bedrock, Amazon SageMaker
Programming & Scripting: Python, Bash, SQL, C, C++, HCL, JavaScript, TypeScript, PowerShell

WORK EXPERIENCE

AI Specialist — SCCC by STC, Riyadh **Sep. 2025 – Present**

- Design and deploy enterprise cloud and AI solutions on Alibaba Cloud.
- Implement cloud architectures using ECS, VPC, OSS, RDS, SLB, ACK, and other Alibaba Cloud services.
- Configure hybrid and enterprise networking using Express Connect, IPSec VPN, routing, and secure VPC connectivity.
- Support cloud migration projects, including infrastructure deployment, connectivity, validation, and troubleshooting.
- Build and operate containerized workloads on Alibaba Cloud ACK and Docker-based environments.
- Develop LLM and AI solutions using RAG, MCP, vLLM, and cloud-native AI services.
- Automate cloud operations and infrastructure provisioning using Python, Bash, and Terraform.

Cooperative Training — SCCC — Alibaba Cloud **Jan. 2025 – Aug. 2025**

- Deployed and managed Alibaba Cloud services including ECS, VPC, OSS, SLB, and RDS.
- Assisted with cloud migration, networking, and infrastructure implementation for enterprise environments.
- Built Infrastructure as Code using Terraform to automate cloud resource provisioning.
- Supported troubleshooting and delivery activities alongside Alibaba Cloud and SCCC engineers.

SIDE PROJECTS

a1s — Easily Manage ABC Resources in Your Terminal (~k9s for Alibaba Cloud) **2026 – Present**

- Terminal-based tool for managing and interacting with Alibaba Cloud resources more efficiently.
- Development is ongoing, with community contributions and improvements welcome.

EDUCATION

Bachelor of Science in Computer Science **May 2025**
King Saud University, Riyadh, Saudi Arabia

CERTIFICATIONS

AWS Certified Machine Learning Engineer – Associate **2026**
ACA Cloud Computing Certification, Alibaba Cloud **Feb. 2025**
Neural Networks and Deep Learning – DeepLearning.AI **Nov. 2024**
